

**REMARKS/ARGUMENTS**

Claim 58 is being amended to cure a minor formal defect ("the second-level module" being changed to "a second-level module").

Claims 59-62 are being canceled since it was realized upon review that claims 59 and 61 were identical to claims 39 and 40 of commonly owned U.S. Patent No. 6,363,870.

**CONCLUSION**

This Amendment cures a minor formal defect in claim 58 and cancels allowed claims 59-62 that were already the subject of patent protection. The Amendment raises no new issues, and therefore entry is respectfully requested.

Respectfully submitted,
